PROJECTS

BLOGGING PLATFORM (MERN STACK)

Developed a full-stack **Blogging Platform** using the MERN stack (MongoDB, Express.js, React.js, Node.js) that enables users to create, edit, and manage blog posts through a secure and user-friendly interface. Implemented authentication using JWT for secure login and user management. Designed a responsive frontend with React and integrated RESTful APIs for seamless communication with the backend. The system supports CRUD operations, centralized data storage, and scalable architecture, enhancing content management efficiency and user experience.

MOVIE RATING WEBSITE (FULL STACK PROJECT)

Designed and developed a full stack Movie Rating Website using HTML, CSS, JavaScript, Node.js, Express.js, and MySQL. Implemented RESTful APIs for managing user ratings and reviews, ensured efficient database integration, and created a responsive and user-friendly interface.
