PROFESSIONAL SUMMARY

MCA fresher (CGPA 8.1) seeking a Full Stack Developer role. Skilled in Java, Python and JavaScript, with hands-on experience in frontend development with React.js, backend APIs with Node.js and Express.js, MongoDB and MySQL databases, and JWT authentication. Built two full stack web applications, a MERN stack blogging platform and a movie rating website, and am developing a third project, an NLP-based research gap detection system, as my MCA final year project. Completed a one-month Python Full Stack Development internship at Nitroware Technologies.

TECHNICAL SKILLS

Programming Languages: Java, Python, JavaScript, SQL
Frontend: HTML, CSS, React.js, Bootstrap, Responsive Web Design
Backend: Node.js, Express.js
Databases: MongoDB, MySQL
APIs and Authentication: REST APIs, JWT Authentication
Tools: Git, GitHub
Core Concepts: Object-Oriented Programming (OOP), CRUD Operations, Debugging, Testing, Problem Solving

PROJECTS

AI-Based Research Gap Detection System | MCA Final Year Project *In Progress*

Python, NLP, React.js, MongoDB

- Developing a system that analyzes research papers to identify possible methodology, dataset and application gaps.
- Completed: PDF upload and text extraction so papers can be processed for analysis.
- In progress: NLP-based analysis to identify keywords, concepts and research areas from the extracted text.
- In progress: React.js interface for uploading papers and viewing analysis results.

Blogging Platform | MERN Stack

MongoDB, Express.js, React.js, Node.js, JWT, REST APIs

- Built a full stack blogging platform where users can create, edit and manage blog posts.
- Implemented JWT authentication for secure login and user management.
- Developed a responsive React.js frontend and connected it to the Express.js backend through REST APIs.
- Implemented all four CRUD operations (create, read, update, delete) with MongoDB to store and manage blog data.

Movie Rating Website | Full Stack

HTML, CSS, JavaScript, Node.js, Express.js, MySQL, REST APIs

- Built a movie rating website with a JavaScript frontend and a Node.js and Express.js backend.
- Added features for users to submit movie ratings and reviews.
- Connected REST APIs to a MySQL database to store and retrieve movie and review data.
- Designed a responsive, easy-to-use interface.

PROFESSIONAL EXPERIENCE

Python Full Stack Development Intern | Nitroware Technologies, Coimbatore *9 May 2026 – 9 June 2026*

- Contributed to frontend and backend development of web applications during a one-month internship.
- Implemented new features and improved existing features in web applications.
- Took part in the design, development and testing of project work.
- Collaborated with a team and applied debugging and problem-solving skills to resolve issues.

EDUCATION

Master of Computer Applications (MCA) *CGPA: 8.1*

Hindusthan College of Arts and Science, Coimbatore

Bachelor of Business Administration (BBA) *CGPA: 7.3*

Kalaignar Karunanidhi Government Arts College, Tiruvannamalai

CERTIFICATIONS

- Full Stack Developer, One Roadmap Skill Certification (2026)
- React.js Developer, One Roadmap Skill Certification (2026)
- Programming with JavaScript, Meta (Coursera) (2025)
- Introduction to Front-End Development, Meta (Coursera) (2025)
- MongoDB Basics for Students, MongoDB (2026)
- Python for Data Science, AI and Development, IBM (Coursera) (2025)
- Java Programming for Beginners, IBM Skills Network (Coursera) (2025)
- PHP and MySQL Training, IIT Bombay (EduPyramids) (2026)
- Introduction to Modern AI, Cisco Networking Academy (2026)
